

LOUDSPEAKER MANAGEMENT

User Manual

Introduction

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacture's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Use only attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personal. Seviceing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. The apparatus shall be connected to a MAINS socket outlet with a protective earthing connection.
16. Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

The symbol, wherever it appears, alerts you to the presence of uninsulated dangerous voltage inside the enclosure—voltage that may be sufficient to constitute a risk of shock.

The symbol, wherever it appears, alerts you to important operating and maintenance instructions in the accompanying literature. Please read the manual.

To reduce the risk of electric shock, do not remove the top cover (or the rear section). No user-serviceable parts inside. Refer servicing to qualified personnel.

To reduce the risk of fire or electric shock, do not expose this appliance to rain and moisture. The apparatus shall not be exposed to dripping or splashing liquids and no objects filled with liquids, such as vases, shall be placed on the apparatus.

These service instructions are for use by qualified service personnel only.

To reduce the risk of electric shock do not perform any servicing other than that contained in the operation instructions. Repairs have to be performed by qualified service personnel.

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN

DO NOT EXPOSE TO RAIN, MOISTURE,
DRIPPING OR SPLASHING

Introduction

The XPLUS Series are powerful DSP based loudspeaker processors, ideally suited for install application, where they combine the functions of a multitude of conventional products in a compact I U unit with extensive remote control capabilities. To achieve this, the XPLUS Series devices have two inputs, three inputs, and four inputs and up to eight outputs.

Units offer “Routing” for free assign signal, which allows completely flexible routing of any output from any combination of inputs.

Each input has a gain control, polarity, noise gate, 31 band Graphic EQ, multi-type filters. Filter types included parametric equalisation, high & low shelving 6dB/12dB/variableQ, all-pass 90 & 180, notch, band-pass, variableQ highpass & lowpass.

Each output has a gain control, polarity, variable delay line, highpass and lowpass crossover filters, multi-type filters, input signal source, a limiter. The crossover filters offer slopes of up to 48dB/Octave.

Security lock-out is available for each parts.

Supply external device remote controls.

Remote port is USB and RS232.

Front Panel

1. LCD Sreen: Show menu infomation and parameters.
2. PRESET: Activates the preset menu.
MENU: Activates the main menu.
EDIT: edit or switch parameters.
SELECT: Select or return key.
▲▼ : Change parameter value.
3. EDIT (MUTE) : These buttons illuminate when pressed and edit parameters for that channel. When push about two seconds, mute/unmute for that channel.
4. Meters: Input and Output meters show dB from clipping point.
5. USB: Type-B used for remote connection.

Rear Panel

1. Power Socket: mains power supply.
 2. RS232: RS232 standard via a 9 pin D-type connector.
 3. Audio Inputs: 3 pin XLR sockets are provided for each channel.
All are fully balanced, pin 2 hot, 3 cold, 1 screen.
 4. Audio Outputs: 3 pin XLR sockets are provided for each channel.
All are fully balanced, pin 2 hot, 3 cold, 1 screen.

Specifications

ANALOG INPUTS

Number of Inputs:	2/3/4 electronically balanced.
Impedance:	> 10k ohms.
CMRR:	> 55dB @ 1kHz.

ANALOG OUTPUTS

Number of Outputs:	6/8 electronically balanced.
Impedance:	< 60ohms
Min. Load:	600ohm
Max. Level:	+10dBu

ADC/DAC PERFORMANCE

ADC Dynamic Range:	> 110dB, 20Hz ~ 20kHz (A-Weight)
DAC Dynamic Range:	> 107dB, 20Hz ~ 20kHz (A-Weight)

SYSTEM PERFORMANCE

Digital Audio Sample Rate:	96kHz
Frequency Response:	+/- 0.5dB, 20Hz ~ 35kHz
Signal to noise ratio:	> 100dB (A-Weight)
Distortion:	< 0.006% @ 1kHz, +4dBu
Latency:	0.52ms (2 in 6 Out / 3 In 6 Out / 4 In 8 Out) @96k

PARAMETERS

Input Gain:	-40dB ~ +6dB in 0.1 dB steps
Output Gain:	-40dB ~ +15dB in 0.1 dB steps.
Delay:	> 50ms(Output), depend on different devices. Min Step Size: 0.010ms(3mm).

Graphic EQ	31 per Input (Optional).
Multi-Type Filters:	10 per Input, 10 per Output. Freq. Range: 20Hz ~ 20kHz, 1/36 Octave steps. Filter Q: 0.4 ~ 128, BW: 0.0078 ~ 2.5. Filter Type: Parametric Equaliser HiShelf-6dB, HiShelf-12dB, HiShelf-Q. LoShelf-6dB, LoShelf-12dB, LoShelf-Q. Variable Q Highpass, Lowpass. Bandpass, Notch, Allpass-90, Allpass-180.

High and Lowpass Filters	Freq. Range: 20Hz ~ 20kHz, 1/36 Octave steps. Slope: 6/12/18/24/36/48 dB/Octave. Type: Butterworth, Linkwitz-Riley, Bessel.
--------------------------	---

Limiters	Threshold: -20 ~ +10dB, 1dB steps. Attack time: 1 ~ 100ms. Release time: 0.1 ~ 2.0 second.
----------	--

DISPLAY

Character LCD:	16x2
----------------	------

CONNECTORS

Inputs:	3 pin female XLR
Output:	3 pin male XLR
USB:	Type-B
RS232:	9 pin DEE connector
Power:	3 pin IEC

POWER SUPPLY

Power Voltage:	90 ~ 240VAC @50/60Hz
Power Consumption:	< 15 watts

PHYSICAL

Weight:	2.2kg. Net (3.2kg. Shipping)
Dimensions:	1.75"(44mm)H x 19"(482mm) W x 6.7"(170mm)D
